

The Beginning.

Hello, I am Brutalni, and no matter what i will always try to destroy the real evil and those who will destroy this society.

1.About

why does the world have to be run by those people? by those who will just destroy the world and then blame the entire "humanity" for being too bad? Why are they saying we are those who are truly evil? if there is way more bad stuff they did than us?

if there is one thing i want you to remember from this words, its that we are all gonna fail because of LGBTQ, Communists, Jews and Satanists, why? here is why.

2.The LGBTQ

Almost the half o the trannies go and buy a rope and commit suicide, or do school shootings because they were "misgendered" its not the parents, its the LGBTQ who teached them about that stuff, that is of course, lies to make "them" feel special.

No matter what, they will always try to make us look like the bad ones because they dont want to be normal, instead they want to be sensitive assholes who cant even protect themself, i literaly saw alot LGBTQ tards are weak and have small arms, oh yea dont forget that they're calling us "Nazis" because they dont have an insult good enough to be used against us.

Look at this, look how much of them are evil

9% PEDOPHILE INTEREST 47% ATHEISTS

15% SATANISTS

10% ZOOPHILES

3.Thoughts on Communism

I didnt really talk with communists alot, but i do hate the LGBTQ communists, for the anti-LGBTQ communists I simply dont care what they do or want, and no that does not mean i support them.

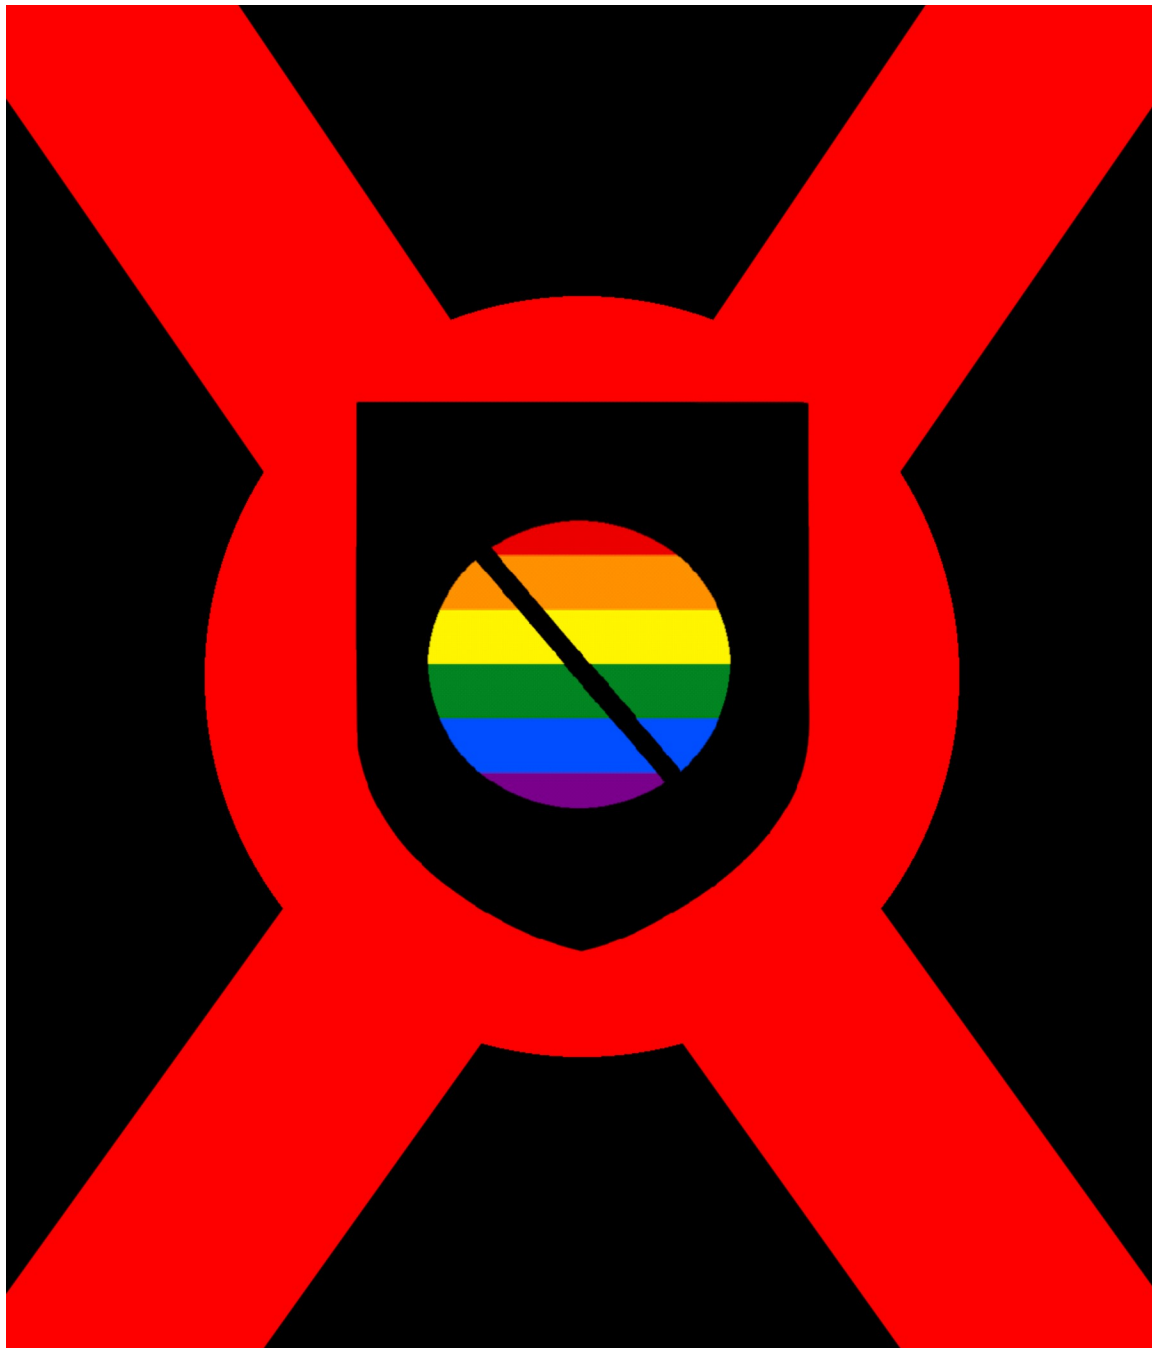

but do i think communism is good? nah.

4.Thoughts on Satanism

I see it as the worst thing ever, it is 5x times worse than LGBTQ, basicaly alot of satanists did horrible stuff and their entire religion is ass to be honest,

5. My message for you

Never commit suicide, dont end up like a tranny man, dont turn into a fag and ruin yourself, stay normal and if you want to fight against the evil, JOIN BRUTAL RIGHT WING, TOWARDS A BETTER SOCIETY!
